### What is Crowdfunding?

Crowdfunding is a simple concept of sharing and promoting your funding needs to various networks, communities and social media platforms where donors are able to support you as the student according to their financial means. If each person in your direct network donate R100 and each person in their network contributes a further R100, an insurmountable goal becomes a lot more attainable within a short space of time.

We look forward to following you on this journey and encourage you to get started by joining the Feenix community for additional advice and tips on how to promote your profile to your networks.
